ABOUT THE AUTHORS

Harry L. Cheddie, P.Eng., CFSE

Harry Cheddie is principal engineer and partner with Exida. He is presently responsible for completing safety studies for end users, developing training programs, and teaching safety courses with an emphasis on IEC 61508 and IEC 61511.

Prior to joining Exida, Harry was a control systems advisor for Bayer Inc. in Sarnia, Ontario, Canada, where he was also the supervisor of the Central Engineering Group responsible for process control systems design and maintenance.

Harry graduated from Salford University in the U.K. with a B.Sc. (1st class honors) degree in electrical engineering. He is a registered professional engineer in the province of Ontario, Canada.

Harry is certified by the American Society for Quality as a quality engineer, and as a reliability engineer. He is also a TÜV certified functional safety expert.

Paul Gruhn, P.E., CFSE

Paul Gruhn is a safety product specialist with ICS Triplex in Houston, Texas.

Paul is an ISA Fellow. He is a member of the ISA SP84 committee, which wrote the 1996 ("Application of Safety Instrumented Systems for the Process Industries") and 2004 ("Functional Safety: Safety Instrumented Systems for the Process Industry Sector") versions of the ISA 84 series standards. Paul is the developer and instructor for ISA's three-day course EC50, "Safety Instrumented Systems," along with the matching one-day course and three-part web seminar series. He is actively involved with ISA in various local and national roles.

Paul is also a member of the System Safety Society and the National Society of Professional Engineers.

Paul has a B.S. degree in mechanical engineering from Illinois Institute of Technology in Chicago, Illinois; is a licensed professional engineer in Texas; and a certified functional safety expert (a TÜV certification).
