IDC TECHNOLOGIES

Technical Information that Works

Post Workshop Questionnaire

Workshop Title _____ City/Country _____ Instructor: _____

Name _____ Company _____ Date: _____

To help us improve the quality of our future workshops your honest and frank comments will provide us with valuable feedback.

How would you rate the following?

Please place a cross (x) in the appropriate column and make any comments on the reverse side of this questionnaire.		Poor 0	1	2	3	4	Average 5	6	7	8	9	Excellent 10
1.	Subject matter presented											
2.	Practical Demonstrations											
3.	Materials provided (training manual, software)											
4.	Slide presentation											
5.	Venue											
6.	Instructor											
7.	How well did the workshop meet your expectations?											
8.	Other, please specify											

Miscellaneous

Which section of the workshop did you feel was the most valuable? _____

Is there a section of the workshop that you would like us to remove/modify? _____

Based on your attendance of this workshop, would you attend any upcoming IDC Technologies workshops? ☐ Y ☐ N

If no, please give your reason _____

_____

Do you have any comments either about the workshop or about the instructor that you would like to share with us?

Would you like to receive updates on new IDC Technologies' workshops? ☐ Y ☐ N

If yes, please supply us with your e-mail address **(please print clearly):** _____

and postal address _____

Customise this Training to your Workplace

Do you think your place of work may be interested in IDC Technologies presenting a customised in-house training workshop? ☐ Y ☐ N

If yes, please fill in the following information:

Contact Person: _____ Position: _____

E-mail: _____ Phone Number: _____

Do we have your permission to use your comments in our marketing? ☐ Y ☐ N

New IDC Workshops

We need your help. We are constantly researching and producing new technology training workshops for Engineers and Technicians to help you in your work. We would appreciate it if you would indicate which workshops below are of interest to you.

Please cross (x) the appropriate boxes.

	INSTRUMENTATION & CONTROL		INFORMATION TECHNOLOGY
	Practical Automation and Process Control using PLC's		Personal Computer & Network Security (Protect from Hackers, Crackers & Viruses)
	Practical Data Acquisition using Personal Computers & Standalone Systems		Practical Guide to MCSE Certification
	Practical On-line Analytical Instrumentation for Engineers and Technicians		Practical Application Development for Web Based SCADA
	Practical Flow Measurement for Engineers and Technicians		
	Practical Intrinsic Safety for Engineers and Technicians		ELECTRICAL
	Practical Safety Instrumentation and Shut-down Systems for Industry		Practical Power Systems Protection for Engineers and Technicians
	Practical Process Control for Engineers and Technicians		Practical High Voltage Safety Operating Procedures
	Practical Programming for Industrial Control – using (IEC 1131-3;OPC)		Practical Solutions to Power Quality Problems for Engineers and Technicians
	Practical SCADA Systems for Industry		Practical Communications and Automation for Electrical Networks
	Practical Boiler Control and Instrumentation for Engineers and Technicians		Practical Power Distribution
	Practical Process Instrumentation for Engineers and Technicians		Practical Variable Speed Drives for Instrumentation and Control Systems
	Practical Motion Control for Engineers and Technicians		
	Practical Communications, SCADA & PLC's for Managers		ELECTRONICS
			Practical Digital Signal Processing Systems for Engineers and Technicians
	COMMUNICATIONS		Practical Industrial Electronics Workshop
	Practical Data Communications for Engineers and Technicians		Practical Image Processing and Applications
	Practical Essentials of SNMP Network Management		Practical EMC and EMI Control for Engineers and Technicians
	Practical FieldBus and Device Networks for Engineers and Technicians		
	Practical Industrial Communication Protocols		MECHANICAL ENGINEERING
	Practical Fibre Optics for Engineers and Technicians		Practical Boiler Plant Operation and Management
	Practical Industrial Networking for Engineers and Technicians		Practical Centrifugal Pumps – Efficient use for Safety & Reliability
	Practical TCP/IP & Ethernet Networking for Industry		
	Practical Telecommunications for Engineers and Technicians		PROJECT & FINANCIAL MANAGEMENT
	Practical Radio & Telemetry Systems for Industry		Practical Project Management for Engineers and Technicians
	Practical Local Area Networks for Engineers and Technicians		Practical Financial Management and Project Investment Analysis
	Practical Mobile Radio Systems for Industry		How to Manage Consultants

If you know anyone who would benefit from attending an IDC Technologies workshop, please fill in their contact details below for your FREE entry into our monthly Lucky Draw Competition.

Prizes Include: Remote Control Dual Scroll Mouse, World Tune Clock Calculator, Movie Tickets, Engineering Reference Books, Free attendance at an IDC Technologies workshop of your choice.
